EDUCATION

UNIVERSITY OF MICHIGAN SCHOOL OF INFORMATION, Ann Arbor, Michigan

Master of Science (M.S.) in Information Science (Focus in User-Centric Agile Development)

May 2026

- Relevant Coursework: Back-end Development for Full-Stack Applications, Developing Mobile Experiences, Web Design, Building Interactive Applications, AR/VR Application Design, Interaction Design, UX Foundations

UNIVERSITY OF CALIFORNIA RIVERSIDE - BOURNS COLLEGE OF ENGINEERING, Riverside, California

Bachelor of Science (B.S.) in Computer Science

June 2023

- Relevant Coursework: Web Development, Data Structures and Algorithms, Database Management Systems, Big Data Management, Entrepreneurship in Computing, Software Engineering

PROFESSIONAL EXPERIENCE

"CODI" APPLICATION, Ann Arbor, Michigan

Mobile Application Developer

October 2025 – May 2026

- Built the frontend for a healthcare, full-stack mobile application using React Native and TypeScript, developing responsive interfaces and integrating LLM-powered features and RESTful web services in an Agile software development environment.
- Translated customer feedback into user stories, refining the product backlog and prioritizing features through iterative sprint development.
- Led frontend development for a cross-functional team, building reusable interface components and communicating development plans to stakeholders while leveraging AI-assisted tools to accelerate delivery.

UNIVERSITY OF MICHIGAN COLLEGE OF ENGINEERING, Ann Arbor, Michigan

Web Developer

June 2025 – October 2025

- Owned frontend development and maintenance of six production websites serving 1,000+ annual users, building accessible, performant interfaces across platforms.
- Partnered with customers to prioritize requirements, troubleshoot issues, and deploy improvements across environments.

UNIVERSITY OF MICHIGAN CENTER FOR ACADEMIC INNOVATION, Ann Arbor, Michigan

Software Quality Assurance Fellow

October 2024 – October 2025

- Developed automated testing frameworks in Python and Selenium, improving test coverage and platform reliability across large-scale EdTech applications.
- Reduced manual testing effort through automation, regression testing, and accessibility validation, identifying WCAG and ARIA compliance issues and partnering with developers to remediate accessibility defects before release.

PROJECT EXPERIENCE

"MeTime" APPLICATION

Web Application Developer

September 2022 – June 2023

- Designed and built the frontend and backend of a full-stack productivity application using Next.js, JavaScript, MongoDB, and Google Calendar API, shipping polished, production-ready interfaces iteratively from concept to deployment.
- Integrated third-party REST APIs and cloud services to create scalable scheduling workflows, prioritizing features based on user research, refining product requirements, and coordinating iterative releases with project stakeholders.
- Presented the product vision, technical architecture, market analysis, and business strategy at the UCR Blackstone Launchpad competition, earning a \$1,000 innovation award.

UI/UX Designer

April 2021 – June 2023

- Conducted user research, including 20 interviews and surveys, to identify key pain points and validate the need for MeTime as a health-technology solution, ensuring high usability and accessibility standards.
- Designed Figma wireframes for MeTime, an award-winning app helping users manage mental health through scheduling.
- Oversaw user-centered design process — defining problem scope, ideating, and prototyping wireframes in Figma — translating user research into interface specifications, resulting in winning the Boston University UX/UI Designathon 'Catalyst'.

SKILLS

Programming & Backend: Python, TypeScript, JavaScript, React, React Native, Vue, Next.js, HTML5, CSS, C, C++, Tailwind, Node.js, RESTful APIs, JSON, OpenAI API, Postman, GCP, Linux | **Design & UX:** Figma, Wireframing, User Research, Usability Testing, User-Centered Design, Prototyping | **Databases:** Postgres, SQL, NoSQL | **Accessibility:** WCAG 2.1 AA, WAI-ARIA, Accessibility Testing | **Methodologies:** Agile, Scrum, Sprint Planning, User Stories, Backlog Refinement, Requirements Gathering, Feature Prioritization | **Testing & Tools:** Test Automation, Jest, Git, GitHub, GitHub Copilot, Claude Code
